08 Product code for customized product

AC series Cabinet Air conditioner

Recommendation application

Power supply is 220VAC, mainly used for cabinet with concentrated heat load.

Features

- Remote measuring, remote communication, remote control, which can realize multiple automatic protection and comprehensive self-testing function;
- Strict process control and famous brand components to ensure high quality and reliability of this product;
- Fit for harsh condition (T3), R134a refrigerant ;
- Multiple self-protection design , RS485 communication port (MODBUS-RTU protocol);
- LED display, all the settings can be changed at the field;
- The heating function is optional;
- Dry contact alarm output, NO/NC available;
- Anti-theft design, without the protection cover.

48VDC series Cabinet Air conditioner

Recommendation application

Power supply is 220VAC, mainly used for cabinet with concentrated heat load.

Features

- Remote measuring, remote communication, remote control, which can realize multiple automatic protection and comprehensive self-testing function;
- DC Air conditioner, Power supply voltage range;
- Fit for harsh condition (T3), R134a refrigerant ;
- Low power consumption design with (SEER ≥ 5.5);
- LED display, all the settings can be changed at the field;
- Strict process control and international brand parts deployed to ensure high quality and product;
- Hydrogen discharging optional;
- Dry contact alarm output, NO/NC available;
- Anti-theft design, without the protection cover.

Heat Exchanger

Recommendation application

Power supply is 48VDC, mainly used for telecommunication outdoor cabinets, power supply cabinet, battery cabinet, integrated cabinet etc.

Features

- Remote measuring, remote communication, remote control, which can realize multiple automatic protection and comprehensive self-testing function;
- Power supply voltage range;
- LED display, all the settings can be changed at the field;
- Strict process control and international brand parts deployed to ensure high quality and product;
- The heating function is optional;
- Dry contact alarm output, NO/NC available;
- Anti-theft design, without the protection cover.

AIRSYS

AIRSYS

Balance the Environment

AIRSYS is a cooling product and solution provider for ICT (Information & Communication Technology) industry.

The products include:

- Air conditioner and Chiller for IT room and large data center
- Intelligent Control system (BAS) for IT room and data center
- Air conditioning equipments for telecom shelters
- Intelligent control system for shelter cooling.
- Air conditioner and heat exchanger for telecom cabinets.

The solution include:

- Cooling system design
- System integration
- Installation and Commissioning
- Operation and Maintenance

AIRSYS is also a global leader in providing cooling solution for Medical Imaging System.
